

MyZuzah Moments - April 8, 2022

During the month of March, our mezuzahs traveled **44,810 miles** across the U.S. and Canada – a significant increase from the 17,233 miles in February. We sent out our first parcels of mezuzahs to partners of our project to support victims/survivors of domestic abuse, and are excited to welcome [Ohel](#) (NY), [JCADA](#) (MD), [Shalom Bayit](#) (CA) to our network.

Overseas, our **Spanish** partner **Yehuda HaLevi** is reaching their community members as far away as the **Canary Islands** and **Norway!** Coincidentally, our local Norwegian partner is finally active, following over a year of COVID-related shutdowns. They are now faced with a number of Jewish **Ukrainian** refugee families relocating to **Oslo**, all of whom will be offered mezuzahs to ease their transition and settlement.

On the internal side, MyZuzah looks forward to sharing some staffing updates after Passover! We have also begun conversations with a number of partners in a new area of outreach, which will allow us to connect with communities of traditionally-underrepresented and underserved Jews.

Partner Organization Updates:

When Alex went to BBYO's International Convention earlier this year, the MyZuzah display was located next to a local Maryland rabbi demonstrating the how-to's of crafting a shofar from raw animal horn. **Rabbi Hillel Baron** then became a partner, and shared this happy photo of the first mezuzah he put up for Ray Ungar, of **Howard County, Maryland**.

Mr. Ungar had this to share: *I am feeling very religious thanks to Rabbi Baron from Chabad of Howard County!*

Chabad at UCLA shared these photos of their work on campus this spring:

Individual recipient messages:

My non-Jewish partner and I felt strongly about putting up a mezuzah on our new home, to show the world what kind of a family we want to build. I am grateful to him for sharing my traditions, and to MyZuzah for helping us do this, together. Victoria Cook, Trenton, NJ
