

MyZuzah Moments - August 9, 2024

MyZuzah hit the news this week, drawing attention to our distinctive program in support of victims/survivors of domestic abuse and violence. The [Jewish News of Greater Phoenix and Northern Arizona](#) wrote a feature on our partnership with the local JFS team, which was then picked up by [EJewishPhilanthropy](#) for wider distribution.

Partner Updates:

After two years of planning together, MyZuzah's partnership with the FIDF has finally resulted in new mezuzot placed on doors in over 250 Israeli Defense Force facilities in Israel. Housed in a military-grade metal case, our high quality kosher klafrim will provide reassurance and support to all those who are fighting to defend the Jewish people. We are raising funds in tandem with FIDF, and plan to cover many more doors! Below, you can see FIDF's CEO, Rabbi Steve Weil, installing the first mezuzah, and a link to a video of thanks from one of the officers in charge of the project.
