

MyZuzah Moments - December 2, 2022

After a hiatus, MyZuzah is finally active again on **social media**— we've been posting pictures, stories, and video several times a week for the last month, and we look forward to engaging with our community and finding new friends in this medium. Feel free to find us wherever you prefer to scroll! We are [@myzuzahorg](https://www.instagram.com/myzuzahorg) on Instagram.

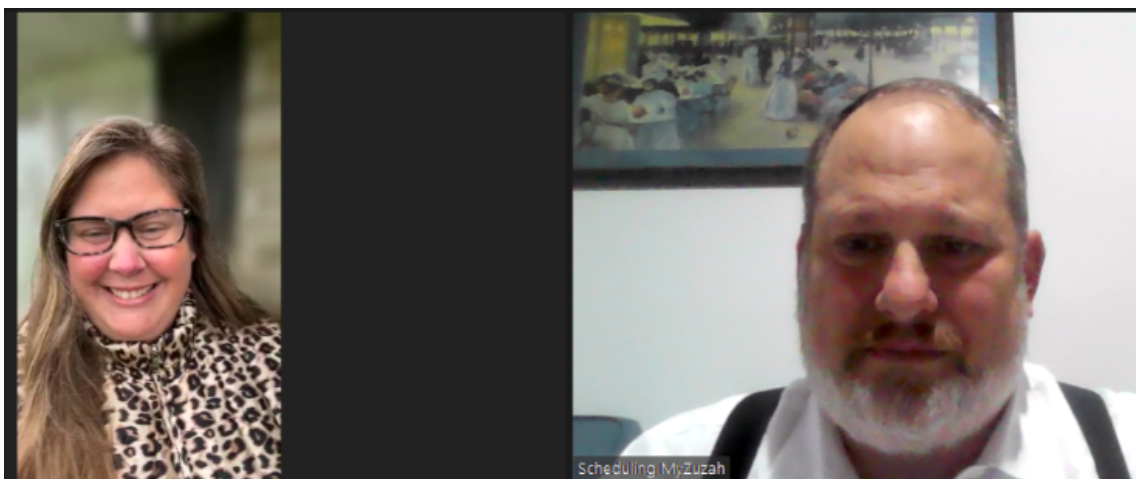

This week, we unfortunately learned that MyZuzah is not advancing in pursuit of a grant to fund a new large-scale *gemach*, or lending library, for those unable to afford mezuzahs. Even so, we press on with our support for Jews in need of mezuzahs, however we can! One partner, Rabbi Yitzchok Yagod of **Moncton, New Brunswick** and **Easton, PA**, has been helping a family of newly-converted Jews from **Ecuador** set up their home in Montreal, complete with a new mezuzah for their front door. At right is a picture of their wedding, right after their conversion was completed.

As we take a look at the field of where our mezuzahs are and where we will be trying to help people check their mezuzahs, our team created this map to visualize all of our mezuzahs over the past few years. We have a lot of analysis yet to do and more data to input, but feel free to explore **where MyZuzah has made a difference in its first four years** (just in the US, for now):
