

MyZuzah Moments - February 10, 2023

In January, our mezuzahs traveled **52,714 miles** to get to their new homes. We don't always hear immediately that the mezuzah has been installed, so from time to time we reach out to our partners and remind individuals to let us know to update us. This week, we received a flood of emails from partners in **Ukraine, Russia, England, and Germany** to give us the good news about hundreds of mezuzahs. Next week, we'll highlight those partners and their pictures.

Partner Updates:

University of Colorado Chabad, in **Boulder, CO**, set up Yehuda HaLevy with his new mezuzah:

Down in **Atlanta, GA**, the Atlanta Scholars Kollel of Brookhaven went on a blitz to put up a dozen mezuzahs this week:

Individual Stories:

*I was told about MyZuzah during a young adult leaders planning call with Keshet. As a Jewish student at a school without many Jews, having a mezuzah on the door post of my room is a sense of pride and reminder of the community supporting me. I feel guarded as I sleep each night. B Littman, **Lincoln, NE***

*Between 2L and 3L years of law school, AJ participated in a summer program in Poland and visited **Auschwitz**, with other law students from the U.S. As part of the experience, they all decided to purchase mezuzah cases from a local artisan to help keep their own traditions alive, and to always remember what they will work for as attorneys. AJ Hudson, **New Haven, CT***

*After my recent divorce, I needed a mezuzah for my new apartment. Through my colleagues at Cornell Hillel, I learned about MyZuzah and truly appreciate you as an awesome resource! This is a great way to reset my home, and my life. Nicole Hakimi, **West Orange, NJ***

Scout Traxler,
Omaha, NE
