

MyZuzah Moments - February 2, 2024

From January through December of last year, MyZuzah sent parcels of mezuzot on journeys of more than **572,114 miles** – that's enough for the highest tier of Frequent Flyer status on every airline, and more than a round-trip journey from the **Earth to the Moon** (238,855 miles each way)!

Our team is continuing to refine the offerings in our new [Store](#), which now includes [Program Boxes](#) that anyone can purchase for a fun and meaningful experience! Whether for a couple kids at home, a Hebrew school class of ten, or materials for one hundred attendees at a conference, we're excited to provide an easy activity with a big impact.

Combined with our latest educational program guide, [Exploring Safrut](#), there's a lot of immersive, hands-on learning for all ages! Grab your own quill and check it out!

Partner Updates:

In **Boca Raton, FL**, more than **80 women** joined together at the **Boca Raton Synagogue** for an evening of learning, discussion, and mezuzah case decorating. Hosted by the local **Momentum** city leaders, in partnership with the **Boca Raton Jewish Experience**, we look forward to more great opportunities with this amazing community.

Each participant had a full complement of painting materials, plus our signature MyZuzah instruction card!

Ahead of the January **Momentum Solidarity Mission** in Israel, Toronto-based artist Marla Buck worked with local Canadian bat mitzvah girls to decorate mezuzah cases and write personalized notes of thanks and support for Israeli soldiers who were injured during the ongoing Gaza war. She brought the cases, complete with MyZuzah scrolls, and along with other Momentum participants, presented them to the soldiers at Hadassah hospital.

Residents of the **Moishe House** in **Nashville, TN**, set their house up in style with our mezuzah:

Individual Stories:

I heard about MyZuzah on a Jewish facebook group. I grew up Orthodox and estranged from the religion after my bat mitzvah. After moving out of home when I turned 18, I found myself leaning back into the religion and connecting with G-d again. At 21, I've been going to synagogue for the last 3 years and slowly integrating religious practices back into my life. A mezuzah was the last thing on my list. I now finally feel Jewish again and I couldn't thank MyZuzah more. **Saskia Müller, East Sussex, UK**

You all are doing holy work!
Yasmin Edison, Huntington, NY

Just moved into my own place, and the mezuzah makes it complete!
Hallie Gordon, St. Louis, MO

And as the whole world continues to grapple with rising antisemitism, it makes us proud to know that we are helping Jews stand up and stand out proudly!

I just bought my first home, and growing up, my parents were Jewish but we never put up a mezuzah in an attempt to blend in with our Baptist neighborhood. Especially with the world as it is today, I am done with trying to blend in!
Emily Tabachnick, Gresham, OR
