

MyZuzah Moments - January 12, 2023

This week, our team mailed out mezuzahs to the community of **Algarve, Portugal**, and to a family in **Guayaquil, Ecuador**. Not content with merely hitting two other continents, we made contact with a community leader in **Ghana**, through our friends at [Kulanu](#), and are working out the logistics of getting mezuzahs to West Africa. If anyone reading this is headed in that direction, please let us know!

Partner Updates:

Sometimes, everything really is local. Even though we are proud to be building a strong relationship with **Moishe House** at the national level, we're also focused on our backyard! Residents of the Moishe House in **Columbia Heights, DC**, reached out for a new mezuzah to place on their front door, and our team made an in-person visit to help put it up.

Marina Hlyapatura received a mezuzah from the Jewish Community leaders in **Rottweil, Germany**

Rabbi Mendel Weingarten, at the **University of Washington Chabad**, shared this mezuzah story on LinkedIn:

I love when students put [#Mezuzahs](#) on their doors.

It's a big deal.

There can be many reasons not to... many reasons to be scared...

When a student decides to put one up... it's a win for [#amysisroel](#).

Thanks to the donors and partners who make these Mezuzahs accessible to students. They're so appreciative.

You can now walk through the dorms and see quite a few Mezuzahs proudly displayed.

Individual Stories:

I grew up in a traditional Jewish home, and my father always talked about the importance of our identity. When I grew up, I married a non-Jew and we didn't do much that was Jewish, but now my daughter is interested in her heritage so I want to demonstrate and teach her for the future. Thank you MyZuzah for helping me show her what a Jewish home can be! Jude Grainger, **Buxton, England**

It feels now like fulfilling the Mizva in the Schema. Also now all my neighbors in Berlin know I am Jewish! Dennis Sololetski, **Berlin, Germany**
