

MyZuzah Moments - January 3, 2025

Our team is preparing for a return to Chicago later this month, where we will be promoting our [educational programs and teaching materials](#) at the **Association of Reform Jewish Educators'** conference on Early Childhood Engagement. If you or someone you know will be attending from **January 22-25**, [please let Alex know!](#)

Partner Updates:

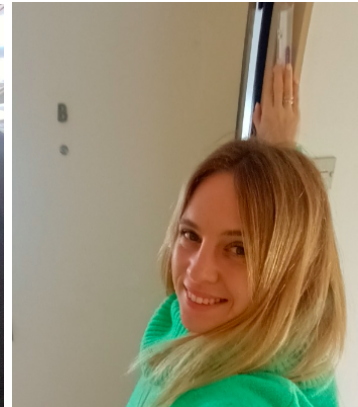

Another partner working with the **IDF Rabbinate** helped to reinforce the structures of an outpost in Gaza, "Chardon," located along the Philadelphi Corridor, near Egypt. You can see in [this video](#) and the pictures below how excited the soldiers are to have their sleeping quarters protected by our mezuzot!

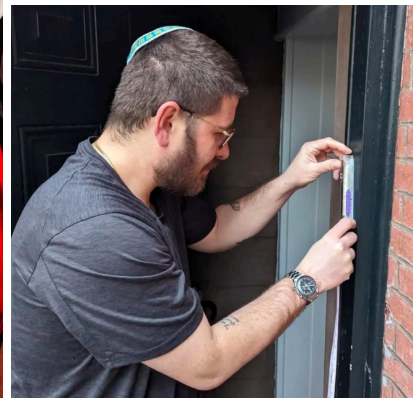

And following up on all our progress in **South America**, it seems like every time we send partners there a large parcel of mezuzot they use them and ask for more!

Gracias a todos los que hacen posible adquirir una mezuza para el hogar y poder cumplir con la mitzva, que hashem les multiplique en mitzvot todo el esfuerzo que hacen! / Thank you to all who make it possible to acquire a mezuzah for the home and to fulfill the mitzvah. May Hashem multiply all the effort you make in mitzvot! Jonathan Benyakar, **Buenos Aires, Argentina**

In **Brooklyn, NY**, Rabbi Mordechai Lightstone of **TechTribe** (a networking group for Jews working for startup/high-tech companies) put up more mezuzahs in their community to brighten the end of 2024:

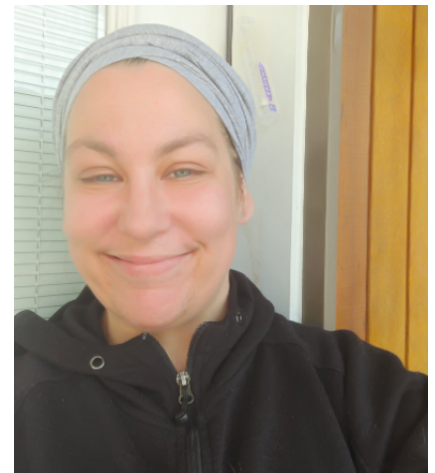

Individual Recipient Stories:

I enjoyed the Virtual Dedication so much that I recorded it to share with the rest of my family. Natali Naden, Portland, OR

Elana Kesselman, **Sharon, MA**

The happiness i feel is beyond words. It was so nice also having other people on the call. And after seeing my mezuzah on the doorpost, my dad wants to get one, too !! It makes me connect/think more about Hashem during my day. Natan Gaspardi di Oliviera, Minas Gerais, Brazil

Amanda Richardson, **Philadelphia, PA**
