

MyZuzah Moments - June 27, 2024

Partner Updates:

A note from **Capt. (Rabbi) Bryan Bowley**, a chaplain with the **Canadian Armed Forces**. He is about to retire, and along with a report that he distributed all the mezuzot we provided, he shared this note of thanks:

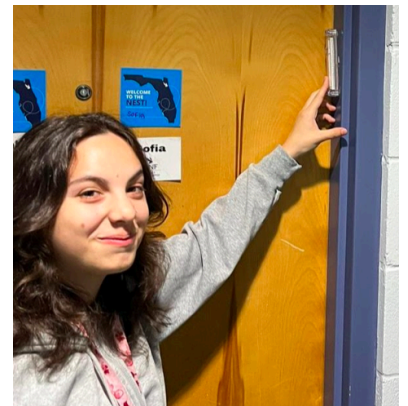

MyZuzah that has "super-charged" my military work. In working with those of us in the military committed to growing, maintaining, and enhancing the lives of Jewish Service men and women domestically and around the world, your organisation is truly a partnering-force and a significant "force multiplier" in carrying out our sacred work. A big yasher koach to your entire team.

An Atlanta returned home from what probably felt like a lifetime away, to be near family, with his new family. Judaism is relatively new to him, but together with his Jewish husband, they work on making their Jewish home here in Atlanta. We were thrilled to be able to support them in this journey, especially since we totally get how the desire to connect with traditions can be felt more when Judaica is used (rather than say a solo cup!). But that desire can also be thwarted by a cost that just doesn't feel feasible amidst moving, caregiving, setting up a new home. We are also thankful to [@myzuzahorg](#) for supporting our mission and helping us provide Southern Jewish homes with a mezuzah and kosher scroll! We can't wait to see the mitzvot and simchas these pieces allow you to enjoy and the [#jewishjoy](#) is brings to your home!

In **Atlanta**, our friends at **L'Dor V'Dor Judaica**, an organization that helps rehome Judaica with Jews who need help setting up their homes, shared the appreciation of someone who needed our support when they moved back to town.

At the **University of North Florida**, in **Jacksonville**, the Hillel team shared pictures of their students putting up mezuzot from the beginning of the semester. All of the students took their mezuzot home at the end of the term.

Cried for most of it. We didn't have the money or the time for me to start Hebrew school when it was my turn and I've always felt robbed some how. Cheated out of a legacy that I deserved. When my daughter was born, I started getting more involved and we joined a local synagogue when we moved here a few years ago, but custody schedules always seem to come first. This is something so small in the grand scheme of things, but it feels so huge to me. So many feels, but most of all, being a happy Jew.

Had the dedication just a short while ago. Officially a Jewish home.
