

MyZuzah Moments - June 6, 2024

Partner Updates:

For several years, we have been listed on the [Tikkun HaYam / Repair the Sea](#) website, as a resource for anyone purchasing one of their awesome mezuzah cases, which are 3D-printed from recycled water bottles. Since 2021, they've helped place **143 mezuzot** across the country.

Two new organizations (synagogues in **Newbury, MA** and **New York City**) reached out to us after purchasing cases as a graduation gift for seniors and felt it was important they got them kosher klaf as well. The synagogues are buying our MyZuzah klafim for this project, and we are in discussions about developing longer-term programs as well!

In the southern **Brazilian** state of Santa Catarina, we've had major interest continue to develop from the **União Israelita do Vale da Região do Itajaí**, a reform synagogue and community, where they have placed 25 mezuzahs so far this year. We are working to find additional financial support so that the Jews of Santa Catarina and other communities across Brazil can receive more mezuzahs particularly as many families return to their Jewish roots, after hiding their identity for generations as [anusim](#). Here are a few recent photos from their community:

Recipient Messages:

Thank you very much for the mezuzah for me and my son! Francesca Diefenbach, Collingswood, NJ

The most exciting part of placing my Mezuzah arrives when I feel and know the peace that comes with fulfilling my mitzvah of placing and acknowledging my Mezuzah. The connection it creates every time I enter or leave my dwelling. Am Yisrael Chai and blessed may you be, in G-d's name. Thank you for assisting me in obtaining my Mezuzah on my new journey in a different state. Levi Goldwing, Austin, TX

I was so excited to get this and put this up. Beautiful. I have my own mezuzah I've had for years but moved it inside a bit after the war started. I really love this mezuzah and am proudly Jewish again at my home. Thank you. Kolya Shoni, Boulder, CO
