

MyZuzah Moments - March 31, 2023

Soon after Passover, MyZuzah will be launching a curated series of emails to every past and future mezuzah recipient, designed to help them continue along their Jewish journey. Full of thoughtful articles and informative links, these emails will be sent at pre-scheduled intervals after a person confirms their mezuzah has been installed, and eventually we look forward to offering custom versions for each of our interested partners, as a way for them to also continue to engage and educate their recipient communities in an easy but impactful way. We'll share a preview next week!

Rabbi Chaim Litvin of **Louisville, KY**, also known as the [Bourbon Rabbi](#), made a trip to Maryland to share his wares with the local community— as a longstanding partner of ours, it was a treat to meet him in person after years of collaboration!

Partner Updates:

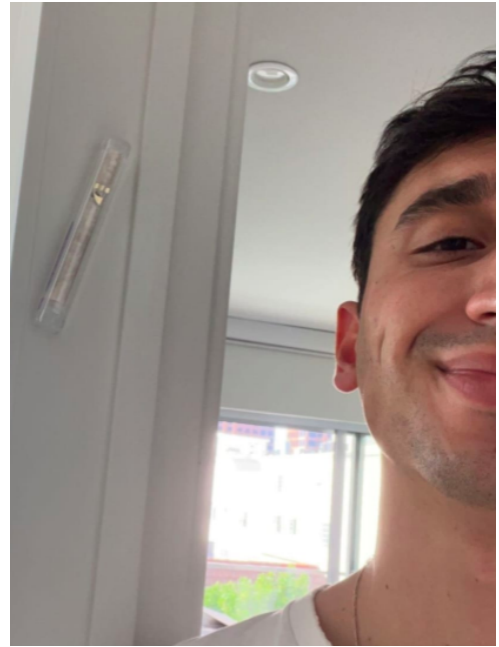

As we build our relationships through the [Kulanu network](#), we are supplying communities in **Uganda, Zimbabwe, Nigeria, and El Salvador** with mezuzot...and many more to come!

In **Ghana**, our local contact has been traveling the country to different communities, sharing our mezuzahs with families in **Accra** and **Tema**:

Rabbi Aharon Mdinardze, of **Olami Georgia**, presented a mezuzah to this young woman in **Tbilisi** (left)

Omeed Zokaeim of Los Angeles received his mezuzah from the team at **Chabad UCLA** (right)

Below are more pictures from the **HCS/Anshe Emet** project last Sunday in **Chicago**, where you can see the volunteers and survivors all had a great time making connections and putting up mezuzahs!
