

MyZuzah Moments - March 6, 2025

Partner Updates:

Another week, another batch of mezuzot on an **IDF base**! This week, our partner visited **Anatot**, the logistics center of the army's Central Command. The [base commander shared a video message](#), and the [base rabbi offered a d'var torah](#) before putting up 35 mezuzot across the base. Our partner and one of our funders received a **certificate and medal of appreciation** for all that we have done with our mezuzot:

In **Los Angeles**, the **JewCLA** team (also known as **UCLA Chabad**) shared more pictures of their work on campus this semester:

In **Gomel, Belarus**, Imanuel Starchenko received his mezuzah from community **Rabbi Ilia Friedkin**, who has been working with MyZuzah since meeting us at the **Conference of European Rabbis** convening in Vienna, in 2023!

Individual Recipient Stories:

And to prove that mezuzahs are truly for *all Jews of all types*, everywhere, here's our last picture from Lydia Lekakh of **Beaverton, OR**.
