

MyZuzah Moments - May 17, 2024

During the next few months, the MyZuzah team will be spending time trying to build a wider base of support in the greater **Atlanta** and **Seattle** areas, in addition to our **South Florida** focus, as we look to create community-wide initiatives that reach all corners of a particular region. If you have suggestions for organizations or individuals whom we should contact, please let us know!

Partner Updates:

With **Moishe House**, our partnership continues to grow in all sorts of new directions. Later this month, we'll be helping their **Camp Nai Nai East** host a mezuzah workshop for Moishe House community members from all over the east coast, and in **Toronto** a resident in their Russian-speaking house dedicated their pad, as did a Moishe House Pod member in **Princeton, NJ**

Rabbi Mendel Weinfeld, who runs the **Chabad of San Jose**, has put up more than 200 mezuzot as a result of our partnership over the years. With more mezuzot ready for good homes, he's got his best outreach professional on the job:

Near **Detroit**, the local Aish HaTorah team is working on distributing their goal of 50 mezuzot. They helped the family above, in **Bloomfield, MI**, dedicate their home to growing Judaism.

Recipient Messages:

I've lived in my home for 4 years and have wanted a mezuzah the entire time, thank you so much! Sarah Bruner, **Lakeside, CA**

Zach Gold, **Baltimore, MD**

I found out about MyZuzah through Google and was happy I did. Knowing more about the tradition of the mezuzah besides just that it's part of the larger mitzvot meant so much more to me. As a Jew by choice, knowing that this symbol connects me to a larger community and fulfills G-d's mitzvah makes me very happy. A last interesting tidbit is because of my Latin heritage and connection to Spain, I had decided to point the mezuzah straight up in the Sephardic tradition as opposed to diagonally in the tradition of Ashkenazim. Christina Gonzalez, Boynton Beach, FL

I heard about MyZuzah from my rabbi in New York! I just moved to the city and was looking for a mezuzah! What surprised me most was how easy it was to put it up and say the simple blessing! I feel so much more at home now that I have my mezuzah! Keren Lonstein, New York, NY
