MyZuzah Moments - November 11, 2022

With MyZuzah in its fourth year of solid operation, we've begun serious consideration and planning for how to deliver on the promise of assisting every one of our mezuzah recipients with checking their mezuzah klaf after three years. There are halachic, logistic, cost, and other questions to be tackled, and we are earnestly thinking through a variety of solutions! Coming soon to a Jewish community event near you - **MyZuzah checking stations**! Details to follow…

Not that anyone's counting…but MyZuzah has now placed mezuzahs in **60 countries**! It is only fitting that the latest addition to our global network was arranged by Louis Mayberg himself, delivered during his recent trip to **Nanakaramguda,** in **Hyderabad, India.** I'm pretty sure!

Partner Updates:

Even though adages are often trite, sometimes it really is all about who you know! The new **Chabad** shaliach in **Bozeman, Montana**, happened to meet one of our partners in Florida during a trip to Brooklyn, and when he mentioned needing mezuzahs for his community members, our partner **Yosef Gershon** came to the rescue! The picture on the left is the first mezuzah placed in their area.

Sterni Wolf and her family continue to serve the community through their work at **Chabad Hannover** in **Germany:**

Robin Meyerson, of **Project Inspire Arizona**, shared that she is running a challah bake and Shabbat project this week for nearly 250 people, of whom many were found through her mezuzah projects! In three weeks, she will be taking 36 ladies to Israel on a Momentum program, with several of those women having first connected with Robin over mezuzahs.

We can also share the first photos of a mezuzah campaign based at the historic **Ohel Leah Synagogue**, in **Hong Kong**:

To round out the global tour this week, in **Seville, Spain**, our friends at **Yehuda HaLevi** provided a mezuzah to Manuel Ortiz-Agenjo:
