MyZuzah Moments - November 17, 2022

This week, our team made the trek from DC up to the **Agawam, MA** offices of PJ Library, at the **Harold Grinspoon Foundation**, where we met with staff across the entire HGF organization and listened in on an illuminating conversation between the Trustees of both foundations. We came away with insights and lessons from the early years of their programming, and ideas to help energize our growth into the future!

Partner Updates:

Even towards the end of the semester, our campus partners are staying busy and helping their students put mezuzahs up in their dorms. Here is **Chabad UCLA, in Los Angeles, CA:**

Not to be outdone, the team at **Rochester Hillel**, in **Rochester, NY** passed along this smiling student:

Down in the mid-Atlantic, Rabbi Velvel Belinsky of the **Ariel Jewish Center**, in **Baltimore, MD**, helped these two women with a mezuzah:

Up north, the **Toronto Mezuzah Project** paired a mezuzah with a set of tefillin for an elderly gentleman living in **Toronto, Canada:**
