MyZuzah Moments - September 1, 2022

What a week! With one teammate moving apartments and another laid low by brief illness, we still managed to have lots of great planning conversations with partners locally and around the world. More interestingly, we fielded requests from some novel potential partners with no obvious connection to our work– proof that our message and reputation are growing!

Before Rosh Hashana, we aim to roll out a brand-new educational program for all our mezuzah recipients, to help them continue growing and moving forward on their Jewish journeys. Next week, I hope to share the details with you.

Partner Updates:

Chai Jewish Center of Colonie in **Loudonville, NY**, put up several new mezuzahs this week:

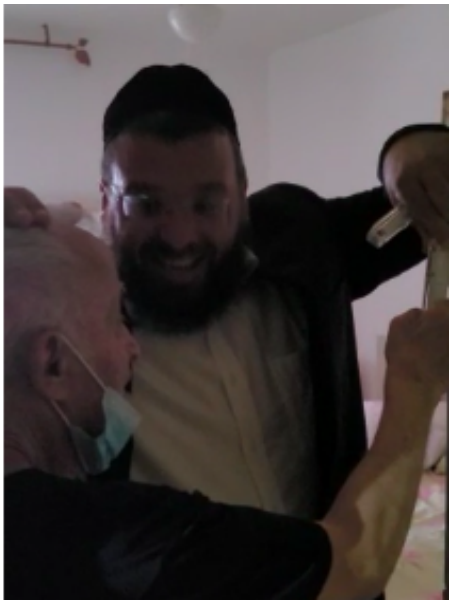

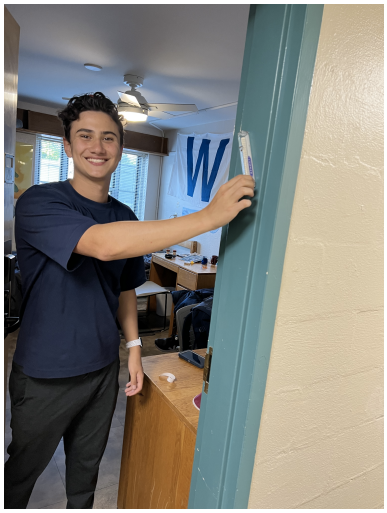

The **Coney Island Mitzvah Corps** spend another sunday putting up mezuzahs and connecting with the elderly Russian community in apartment buildings in **New York**.

Ezra Glasman, a student at **Oberlin College**, received a mezuzah from the campus Chabad rabbi and said *I just moved into Oberlin College, and I went with my family to introduce ourselves to the local Chabad representatives. On the way out the door they asked if we'd affixed a mezuzah to the door. Thanks for the reminder!!*

Rabbi Adiel Boaron, in **Israel**, shared this incredible story: *A 92-year-old Jew who just moved to Israel from Crimea grew up in the Soviet Union told me he has never said a blessing in his life, he didn't have a bar mitzvah– he didn't even know what a bar mitzvah was– he finally fled because of the war, and it's unbelievable and a Kiddush Hashem for him to put up a mezuzah, thanks to a great organization, MyZuzah!*

[Click here to watch the short video](#) of them putting the mezuzah up together!

Other pictures from their work this week include some colorful characters, and a father-son duo in **Ma'aleh Tarshiha**:

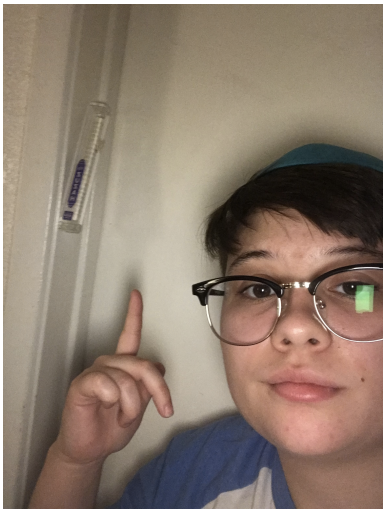

Rabbi Aaron Bachkala of the **Israelitische Kultusgemeinde** in **Rottweil, Germany**, shared his team's recent work:
